Netaf type dropper bag 200 units - 4 l - h, GIBALTO

Brand: GIBALTO

Reference: GIB 006504

Self-compensating dripper ideal for garden and orchard irrigation systems, designed to provide a uniform flow rate within a specific pressure range. Its robust construction minimizes clogging, ensuring efficient performance. Its installation is simple, making it easy to use in a variety of irrigation applications.

[View product online](#)**Description**

The NETAFIM dripper is an efficient solution for watering plants in gardens and orchards, designed to offer a uniform flow rate and high resistance to clogging. This self-compensating irrigation system adapts to different inlet pressures, guaranteeing a constant flow of water for optimal plant care.

- Dripper type: NETAFIM self-compensating.
- Working pressure: 1.4 to 4 Bar.
- Available flow rate: 4L/H or 8L/H.
- Design with wide water passage to minimize clogging.
- Compatible with thick-walled pipes.
- Easy installation.
- Color: black.
- EAN13: 8432453065046.
