Description

The 5mm 3/4" Fertilizer Injector is an efficient and reliable tool for precise fertilizer dosing in irrigation systems. Designed to be easily integrated into various irrigation setups, this device ensures even and controlled nutrient distribution, optimizing plant growth and health.

- **Body Material:** Made of polypropylene, ensuring strength and durability against harsh conditions and chemicals.
- **Included Components:** The set includes a Venturi injector, a flow meter, a dosing wrench, and a check valve.
- **Available Diameters:** Offered in four different diameters to suit various installation needs.
- **Flow Meter:** Equipped with a stainless steel indicator ball, it provides accurate and reliable graduation, avoiding rust problems.
- **Dosing Wrench:** Allows you to adjust the fertilizer dosage precisely. In addition, it acts as a non-return valve when closed, ensuring that the flow does not reverse.
- **Check valve:** Prevents fluids from returning to the tank, incorporating a filter that prevents blockages due to suspended sediments.
- **EAN code:** 8432453021080, for easy identification and inventory management.
