

Product sheet

Threaded nipple - 2 1/2", ABRISA.

Brand: ABRISA

Reference: GIB 001316

Accessory designed to facilitate the installation of irrigation systems, ideal for drip and water conveyance applications. Made of polypropylene, it offers durability and strength, adapting to different diameters to meet a variety of irrigation project needs. Its threaded design ensures a secure and efficient connection.

Description

The 2 1/2" threaded male fitting is an essential component in the installation of irrigation systems, specifically designed to facilitate the safe and efficient connection of different elements in drip irrigation and water conduction systems. Manufactured with high quality materials, this accessory guarantees durability and resistance in various conditions of use.

- Material: Polypropylene (PP), known for its corrosion resistance and durability in irrigation applications.
- Diameter: 2 1/2", with options available from Ø1/4" to Ø3", allowing wide compatibility with different irrigation systems.
- Connection: Threaded, ensuring simple installation and a firm connection between components.
- Applications: Suitable for drip irrigation and water conduction systems, providing versatility in use.
- EAN13: 8432453013160, for easy identification and inventory management.
