Description

The 3" threaded male fitting is an essential component for the installation of irrigation systems, specifically designed to facilitate the connection of different elements in drip irrigation and water conduction systems. Manufactured with high-quality materials, this accessory guarantees durability and resistance in various conditions of use.

- Material: Polypropylene (PP), known for its corrosion resistance and durability.
- Diameter: Available in a range from Ø1/4" to Ø3", allowing its use in various irrigation applications.
- Connection: Threaded, which ensures simple and secure installation, minimizing the risk of leaks.
- Applications: Compatible with drip irrigation and water conduction systems, providing versatility in its use.
- EAN13 code: 8432453013184, for easy identification and inventory management.
