

Product sheet

Reduced threaded nipple - 1 - 3/4", ABRISA.

Brand: ABRISA

Reference: GIB 001320

Reduced threaded connector ideal for irrigation systems, made of polypropylene. Its design allows for efficient integration into drip irrigation and water conveyance applications, offering versatility and adaptability to various installation configurations. Its durability ensures optimal performance under demanding conditions.

[View product online](#)**Description**

The reduced threaded connector is an essential component in the installation of irrigation systems, specifically designed to facilitate the connection of different elements in drip irrigation and water conduction systems. Manufactured with high-quality materials, this accessory guarantees durability and resistance in various conditions of use.

- Material: Polypropylene (PP), known for its corrosion resistance and durability in irrigation applications.
- Available diameters: From Ø3/4x1/2" to Ø3x2-1/2", offering versatility to adapt to various irrigation system configurations.
- EAN13: 8432453013207, for easy identification and reference in inventories and catalogs.
