Description

The 25mm prisoner fitting is an essential part for replacing polyethylene (PE) unions, designed to ensure a safe and efficient connection in piping systems. Manufactured with high-quality materials, this component is a reliable solution for applications that require durability and resistance.

- Diameter: 25 mm
- Material: PVC, known for its corrosion resistance and durability in various environmental conditions
- Compatibility: Specifically designed for polyethylene (PE) unions
- Variety of sizes: Available in seven different diameters to adapt to different installation needs
- EAN13 code: 8432453049077, for easy identification and management in inventories
