Description

The 2-inch 100 Mesh replacement filter is an efficient solution for keeping your irrigation systems clean and running smoothly. Designed to prevent clogging, this filter ensures a constant and uninterrupted flow, protecting the irrigation system from impurities and unwanted particles.

- **Stainless steel mesh:** Made with high-quality materials, this filter offers durability and corrosion resistance, guaranteeing optimal performance over time.
- **High impurity retention capacity:** Its advanced design allows it to capture a wide range of particles, ensuring that the water passing through the system is free of contaminants.
- **Filtering capacity: 100 Mesh:** With a filtering capacity of 100 Mesh, this replacement is capable of retaining particles up to 149 microns, providing a suitable filtration level for most irrigation applications.
- **2-inch connection:** Compatible with irrigation systems that use 2-inch connections, making it easy to integrate into existing installations without the need for additional adapters.
- **EAN13: 8432453036596:** Unique identification that ensures the authenticity and traceability of the product.
