Description

The 7mm Hole Punch is a hand tool designed to punch and create precise holes in polyethylene (PE) pipes. Its ergonomic design and specific functionality make it suitable for installation tasks in irrigation systems, facilitating the efficient insertion of drippers.

- Manual Hole Punch: Designed to offer precise control during the drilling process.
- Compatibility with PE pipes: Allows you to make clean and exact holes in polyethylene pipes, ensuring a proper fit for irrigation system components.
- Non-slip plastic handle: Provides a secure and comfortable grip, reducing the risk of slipping during use.
- Trigger to eject excess plastic: Facilitates cleaning the work area by automatically removing plastic waste generated during drilling.
- Available in 5 different diameters: Offers versatility to adapt to different installation needs and dripper sizes.
