Description

The GARDENA 1" female irrigation plug is a fundamental component for irrigation system installations, designed to provide an efficient and secure connection in drip irrigation and water conveyance applications. This threaded fitting is made of polypropylene (PP), a material known for its high corrosion resistance and durability in various environmental conditions. Its design allows for easy installation and a tight fit, minimizing the risk of leaks and ensuring optimal performance in the irrigation system.

- **Material:** Polypropylene (PP), which ensures strength and durability.
- **Diameter:** Available in sizes ranging from 1/2" to 2", adapting to different configurations.
- **Connection:** Threaded, facilitating installation and ensuring a secure fit.
- **Applications:** Compatible with drip irrigation and water conveyance systems.
- **Code EAN13: 8432453070781, for easy identification and inventory management.**
- **Versatility: Ideal for various irrigation configurations.**
- **Durability: Resistant to adverse weather conditions.**
- **Easy Installation: Design allows for quick and efficient assembly.**
- **Reliability: Ensures consistent performance in the irrigation system.**
- **Professional Use: Recommended for gardeners and landscapers.**
