Description

The EQUAL TE FITTING - 90MM is a technical accessory designed for polyethylene piping systems. Its main function is to facilitate the continuity, connection, direction, and branching of pipes, ensuring efficient and safe flow in various industrial and construction applications.

- Body and nut made of polypropylene (PP), ensuring durability and corrosion resistance.
- Rubber O-ring, providing optimal tightness, preventing leaks and ensuring reliable performance.
- Polypropylene press joint, offering a secure and stable fit in the connections.
- Conical acetic resin bushing, designed to improve the stability and alignment of the connected pipes.
- Available in diameters ranging from Ø20 mm to Ø90 mm, adapting to various installation needs.
