Description

The special 16mm high-flow coupling is designed to facilitate the joining of polyethylene (PE) pipes in drip irrigation systems. Made of high-quality materials, this coupling guarantees optimal performance and long-lasting durability under various usage conditions.

- Material: Polypropylene (PP), known for its strength and durability.
- Diameter: 16mm, suitable for drip irrigation systems.
- Unique design that improves grip and ensures a firm and secure connection.
- Available in three sizes to suit different installation needs.
- EAN13: 8432453012446, for easy identification and reference.
