Description

The high-flow intake with safety ring is an essential component for drip irrigation systems, designed to facilitate the joining of pipes and ensure efficient water flow. Made from high-quality materials, this fitting ensures durability and strength under a variety of usage conditions.

- Material: Polyethylene (PE), providing excellent resistance to corrosion and chemicals.
- Integrated safety ring, providing greater resistance to pressure, ensuring a firm and stable connection.
- Easy installation, allowing for quick and hassle-free assembly in irrigation systems.
- Color: Combination of black and red, making it easy to identify and handle in the field.
- Available in various sizes, adapting to different needs and configurations of irrigation systems.
- Presented in a bag of 100 units, ideal for large-scale projects.
- EAN13 code: 8432453012460, for easy identification and inventory management.
