Description

The 12mm Micro Acetal Fitting is an essential component for drip irrigation systems, designed to facilitate the connection of polyethylene (PE) pipes. Made from Acetal Resin (POM), this fitting offers a durable and efficient solution for water management in various agricultural and gardening applications.

- Material: Acetal Resin (POM), known for its high strength and durability.
- Diameter: 12mm, suitable for PE pipes used in drip irrigation.
- Unique design that improves the grip, ensuring a firm and secure connection.
- EAN13: 8432453090833, for easy identification and inventory management.
