

Product sheet

Normal socket acetal bag 100 units - 16mm green, ABRISA.

Brand: ABRISA

Reference: GIB 009093

Connectors designed to join polyethylene pipes in drip irrigation systems, made of acetal resin that guarantees durability and resistance. Their design optimizes grip, adapting to various applications in the agricultural sector. Available in various colors to facilitate integration into different environments.

The Acetal Fitting is an essential component for drip irrigation systems, specifically designed to efficiently and securely join polyethylene (PE) pipes. Made from Acetal Resin (POM), this fitting offers a durable and reliable solution for agricultural and gardening applications, ensuring a firm and stable connection.

- Material: Acetal Resin (POM), known for its high strength and durability.
- Diameter: 16 mm, suitable for standard drip irrigation pipes.
- Available in green, brown, and black, to suit different aesthetic and camouflage needs in the environment.
- Exclusive design that improves the grip, ensuring a more secure connection and preventing leaks.
- EAN13: 8432453090932, for easy identification and inventory management.
