### Description

The 20mm standard socket is an essential component for joining polyethylene (PE) pipes in drip irrigation systems. Designed to offer a secure and efficient connection, this socket guarantees optimal performance under various usage conditions. Made of high-quality materials, its unique design provides improved support, ensuring the stability and durability of irrigation installations.

- Material: Acetal Resin (POM), known for its strength and durability.
- Diameter: 20mm, suitable for standard drip irrigation pipes.
- Available in green, brown, and black, to suit different environments and aesthetic preferences.
- Unique design that improves support and minimizes the risk of leaks.
- EAN13: 8432453012439, for easy identification and inventory management.
