Double Effect Suction Cup - 1", ABRISA

Brand: ABRISA

Reference: GIB 007057

Double-acting air valve ideal for optimizing drip irrigation systems. Its polypropylene design facilitates air extraction when filling pipes, preventing crushing and ensuring efficient operation by allowing atmospheric air to enter.

Description

The double-acting air valve is an essential component for drip irrigation systems, designed to control and eliminate air in water lines. Its double-acting function allows air to be extracted from the pipes during filling with fluid and protects them from crushing by allowing atmospheric air to enter in the event of minimal depression.

- Valve type: Double-acting air valve with male spring.
- Connection: Male thread.
- Manufacturing material: Polypropylene (PP).
- Available sizes: 1/2" and 1".
- Sales mode: Bulk.
- EAN13 code: 8432453070576.
