Description

The angled TV extension cable is a coaxial cable specifically designed for 75 Ohm television antennas, providing an efficient and stable connection between the antenna socket and TV devices. This cable is a practical solution for those who need to extend the distance between their television and the antenna socket without compromising signal quality.

- Impedance: 75 Ohms, optimized for television signals.
- Connectors: Angled MH, which facilitates connection in small spaces.
- Color: White, for discreet integration into any environment.
- Available lengths: 1.5 meters and 2.5 meters, adapting to different installation needs.
- Product code: 3CV2, for easy identification.
- EAN13: 8432453050592, ensuring its authenticity and traceability.
