Product sheet

TV Square Claw: Precision, Durability, CLAW

Brand: SURMEDIA

Reference: GIB 011775

This structural component provides support and stability in a variety of installations. Its robust design ensures durability in technical applications, making it especially suitable for projects that require precision and reliability in the assembly of audiovisual equipment, contributing to safety and efficiency.

Description

The TV Angle Clamp is an essential component for securing structures efficiently and safely. Designed to provide a robust hold, this angle clamp is ideal for applications requiring reliable and long-lasting fastening. Its 120mm profile plate design provides exceptional stability, ensuring that structures remain firm under various conditions.

- Material: Made of high-strength steel, ensuring a long lifespan and excellent load-bearing capacity.
- Dimensions: 120mm profile plate, designed to offer optimal support in structural applications.
- Finish: Anti-corrosion coating that protects against rust and wear, ensuring optimal performance in indoor and outdoor environments.
- Compatibility: Suitable for a wide range of applications, including the fixing of metal and wooden structures.
- Installation: Easy to install thanks to its pre-drilled holes, which allow for quick and secure mounting.
- Strength: Capable of supporting heavy loads, making it suitable for projects that require a high load-bearing capacity.
- Versatility: Its design allows it to be used in different configurations, adapting to the specific needs of each project.
