Description

The 2.5A white feed-through switch is an efficient solution for managing the flow of electrical current in a variety of environments. Designed to offer simple and safe control, this switch is suitable for use in domestic and commercial applications, providing reliable and long-lasting functionality.

- Maximum intensity: 2.5A and 250V, ensuring optimal performance in most standard electrical installations.
- Two-pole current feed-through switch, which allows you to interrupt and resume the electrical circuit with a single button, facilitating its daily use.
- White color, which easily integrates with most interior decorations, offering a clean and discreet appearance.
