

## Product sheet

**I+N circuit breaker 18mm - 16A, KRANG**

Brand: KRANG

Reference: GIB 003361

Single-pole switch with 18 mm neutral, ideal for safeguarding single-phase or two-phase electrical installations. Its design provides effective protection against short circuits and overloads, ensuring safe and efficient operation in electrical circuit management and adapting to various amperage requirements.

[View product online](#)**Description**

The I+N 18MM - 16A thermal-magnetic switch is an essential device for the protection of electrical installations. Designed to safeguard both the electrical infrastructure and the connected devices, this switch is capable of preventing damage caused by short circuits and overloads in single-phase or two-phase systems.

- Type: Single-pole + neutral
- Nominal current: 16A
- Width: 18 mm
- Available models: 10A, 16A, 20A
- EAN13: 8435240704401

**Specifications**

|                                        |               |
|----------------------------------------|---------------|
| Rated current (A)                      | 16            |
| EAN                                    | 8435240704401 |
| Cable cross-section (mm <sup>2</sup> ) | 18            |
