I+n magneto-thermal 36mm - 16a, KRANG

Brand: KRANG

Reference: GIB 004169

Circuit breaker designed to safeguard electrical installations against short circuits and overloads in single-phase or two-phase systems. Its compact size facilitates integration into different configurations, ensuring safe and efficient performance in a variety of electrical applications.

Description

The I+N 36mm 16A miniature circuit breaker is an essential device for protecting electrical installations and appliances. Designed to prevent damage caused by short circuits and overloads, this switch is a reliable solution for single- or two-phase installations. Its compact and efficient design ensures optimal performance in a variety of electrical applications.

- Rating: 16A
- Dimensions: 36mm wide
- Type: Double-pole
- Function: Short circuit and overload protection
- Compatibility: Single- and two-phase installations
- EAN13 Code: 8435240704463

Specifications

Rated current (A)	16
EAN	8435240704463
