Description

The MARCHA 1-7 Analog Timer is an efficient solution for managing lighting on/off times in indoor spaces, especially designed for stairwells and common areas. With a width of 2 modules and no reserve function, this device allows for simple and effective programming. Its design includes captive mounting brackets that facilitate setup and reading of the program, ensuring that users can adjust time intervals intuitively. It offers 30-minute programming intervals and three operating modes: continuous on, continuous off, and automatic, making it a versatile option for various lighting needs. Installation is quick and easy, making it ideal for both professionals and homeowners looking to optimize energy use in their homes or businesses.
