Description

The flexible head polyamide cable gland is a tool designed to facilitate the passage of cables through pipes and conduits. Its 3mm polyamide fiber construction ensures durability and flexibility, allowing efficient handling in a variety of applications.

- Material: 3mm polyamide fiber, providing an optimal combination of strength and flexibility.
- Flexible head: Designed to adapt to bends and twists in pipes, improving maneuverability.
- Spring end: Incorporates a rounded head that facilitates penetration into the pipe, reducing the risk of jamming.
- Clamping washer: At the opposite end, a washer allows a secure hold of the cable to be passed.
- Brass terminals: Manufactured from maximum hardness brass, ensuring a long life and wear resistance.
- Total length: 20 meters, offering a suitable reach for most installations.
- EAN13: 8435240705286, for precise product identification.
