Product sheet

Polyamide Flexible Head Thread Guide - 25m, KRANG.

Brand: KRANG

Reference: GIB 004074

This cable guide device is designed with a flexible head for easy insertion into pipes. Its polyamide construction and brass terminals ensure durability and strength, allowing for efficient handling in electrical and telecommunications installations. Its 20-meter length offers versatility in a variety of applications.

Description

The flexible head polyamide cable gland is a tool designed to facilitate the passage of cables through pipes and conduits. Its polyamide construction and ergonomic design ensure efficient and long-lasting use in a variety of electrical installation applications.

- Material: High-strength polyamide, providing durability and flexibility.
- Guide diameter: 3 mm, suitable for a wide range of applications.
- Flexible head: 20 meters in length, designed to adapt to bends and twists in pipes.
- Spring-loaded end with rounded head: Facilitates penetration into the pipe, minimizing the risk of jamming.
- Opposite end with washer: Allows secure hold of the cable to be passed through.
- Brass terminals: Offer maximum strength and wear resistance.
- Total length of the cable gland: 25 meters, providing a suitable reach for most installations.
- EAN13: 8435240705309, for easy identification and reference in inventories.
