Description

The child safety plug protector is an effective solution for ensuring the safety of the little ones in the home. Specifically designed to protect babies and children from the dangers of electricity, this device offers peace of mind to parents by preventing accidental access to sockets.

- Dimensions: 3.5 x 3 cm
- Compatibility: Schuko
- Color: White
- Material: Thermoset
- Automatic rotation mechanism: The protector has a system that is activated when a plug is inserted. When placing the plug in the two holes in the mechanism, it must be turned 90 degrees to the right to allow full connection. When removing the plug, the mechanism automatically rotates 90 degrees to the left, securing the plug again.
- Integrated adhesive: Includes a maximum adhesion adhesive that facilitates quick and easy installation, without the need for additional tools.
