Description

The socket protector is a practical and effective solution for ensuring home safety, especially in spaces frequented by small children. Designed to fit different types of sockets, this product provides a physical barrier that prevents direct access to electrical outlets, thus reducing the risk of accidents.

- Compatibility: It can be used on grounded or non-grounded sockets, making it versatile for different electrical configurations.
- Format: Available in a blister pack containing 15 units, providing ample coverage for multiple sockets in the home.
- Material: Made with strong and durable materials that ensure long-lasting and effective protection.
- Installation: Easy to install and remove, allowing for comfortable and hassle-free use.
- Safety: Specifically designed to prevent children from inserting objects or their fingers into sockets, minimizing the risk of electric shock.
