Description

The 4mm white terminal block is an efficient and versatile solution for connecting cables in electrical installations. Made of high-quality polyamide, this component guarantees high resistance and durability, ideal for environments requiring optimal performance. Its design allows for easy mounting with screws, ensuring a firm and secure connection. Available in various sizes and configurations, this terminal block adapts to diverse installation needs, facilitating the organization and management of electrical cables. Its use is suitable for both residential and industrial electrical installations, meeting the required safety and functionality standards in the electrical field.

- **Number of paths:** Various sizes available
- **Mounting type:** Screw
- **Pitch:** Various sizes for different applications
- **Material:** High-quality polyamide
- **Color:** White
- **Use:** Safe and efficient electrical connections
- **Applications:** Residential and industrial electrical installations
- **EAN13:** 8435240705033

This terminal block is a reliable option for those seeking connection solutions that meet safety and functionality standards in the electrical field.

Specifications

Colour	White
EAN	8435240705033
Cable cross-section (mm ²)	4
