**Buzzer Doorbell 240V 80DB,
KRANG**

Brand: KRANG

Reference: GIB 012320

An electrical device designed to emit a powerful 80 dB sound, ideal for alerts in industrial or commercial environments. It operates on a voltage of 220 to 240 V, ensuring efficient and reliable performance in a variety of applications. Its compact design makes it easy to install in a variety of spaces.

[View product online](#)**Description**

The 240V buzzer bell is an efficient solution for applications requiring a clear and powerful acoustic signal. Designed to operate in a voltage range of 220 to 240V, this device is suitable for various electrical installations, providing a sound of 80 decibels that ensures its audibility in different environments.

- Operating voltage: 220-240V
- Sound level: 80 dB
- Signal type: Buzzer
- Installation: Compatible with standard electrical systems
- Durability: Constructed with durable materials for long-lasting use
- Energy consumption: Optimized for efficiency

Specifications

EAN	8425156256057
Nominal voltage (V)	240
