Description

The Schuko triple adapter is a practical and efficient solution for expanding electrical connection capacity in domestic or professional spaces. Designed for safety and functionality, this adapter allows multiple electrical devices to be connected simultaneously, maintaining a stable and secure power flow.

- Schuko triple adapter with a compact and functional design.
- Includes a 2P output with a side TT for a secure connection.
- Current capacity of 10/16A at 250V, suitable for various electrical applications.
- Supports a maximum power of 3500W, allowing the use of high-energy consumption devices.
- Made of thermoplastic material, ensuring durability and heat resistance.
- White finish, which integrates easily into any environment.
- Equipped with protectors for greater safety in daily use.

Specifications

Rated current (A)	16
