Description

Silicone coffee maker seal is an essential component for ensuring the proper functioning of aluminum coffee makers. Designed to offer greater durability and resistance compared to traditional rubber seals, this part is compatible with various brands and models of coffee makers, guaranteeing an optimal seal and a long lifespan.

- Material: High-quality silicone, which provides superior resistance to wear and high temperatures.
- Compatibility: Suitable for any brand of aluminum coffee makers, making it a versatile option for different models.
- Durability: Offers a longer lifespan than conventional rubber seals, reducing the need for frequent replacements.
- Diameters: Available in various diameters to fit different sizes of coffee makers, ensuring a perfect fit.
- EAN code: 8432453095326, for easy identification and search in inventories and product management systems.
