Description

The 9-cup silicone coffee maker gasket is an essential component to ensure the optimal functioning of your aluminum coffee maker. Designed to offer greater durability and resistance compared to traditional rubber gaskets, this part ensures an effective seal and prolongs the life of your coffee maker.

- Material: High-quality silicone, which provides superior heat and wear resistance.
- Compatibility: Suitable for any brand of aluminum coffee makers, making it a versatile option for different models.
- Durability: Offers a longer lifespan than conventional rubber gaskets, reducing the need for frequent replacements.
- Available diameters: Offered in various diameters to suit different sizes of coffee makers, ensuring a perfect fit.
- EAN13 code: 8432453095333, for easy identification and purchase.
