

Product sheet

**Two-mesh hose - 15x20mm
50m, PLASTIRE**

Brand: PLASTIRE

Reference: GIB 003030

Triple-layer plastic-coated PVC hose, designed to offer high resistance to adverse weather conditions and aging. Its polyester-reinforced structure makes it suitable for irrigation, gardening, and pressurized fluid handling applications across a wide temperature range.

[View product online](#)**Description**

The 50-meter 15x20mm Double-Mesh Hose is a robust and versatile solution for various applications requiring the conveyance of pressurized liquids. Designed for durability and resistance, this hose is suitable for demanding environments and adverse weather conditions.

- **Material:** Made of triple-layer plasticized PVC, which provides a solid and resistant structure.
- **Reinforcement:** Incorporates polyester threads that increase its resistance to pressure and wear.
- **Treatment:** It has an anti-sun treatment that protects the hose from the harmful effects of prolonged exposure to the sun.
- **Resistance:** It offers great resistance to atmospheric agents and aging, ensuring a long useful life.
- **Color:** It has a yellow exterior and a black interior, facilitating its identification and use.
- **Temperature range:** It works efficiently in a temperature range of -15°C to 60°C, adapting to various climatic conditions.
- **Dimensions:** Diameter of 15x20mm and length of 50 meters, suitable for multiple applications.
- **EAN13:** 8432453030303
