Description

The 50mm padlock is designed to offer security and durability in a variety of applications. Made from high-quality materials, this padlock guarantees reliable protection against tampering attempts and adverse environmental conditions.

- Material: Brass, known for its corrosion resistance and durability.
- Shackle: Made of tempered and chrome-plated steel, providing high resistance to cutting and tensile strength.
- Locking system: Double bolted, offering greater security by making forced opening difficult.
- Interior: Stainless internal components, ensuring smooth and prolonged operation even in humid environments.
- Keys: Includes three brass keys, each designed for long-term use and wear resistance.
- Dimensions: Available in various sizes to suit different security needs.
