Description

TOLSEN's 5-piece wood drill bit set is designed to deliver optimal performance in woodworking applications. Made from high-quality materials, these drill bits ensure durability and precision with every drill hole. They are designed to meet the needs of professionals looking for reliable and efficient tools.

- Material: Heavy-duty steel, ensuring strength and long life.
- Standard: Complies with DIN338 standard, ensuring quality and compatibility with standard drilling tools.
- Treatment: Tempered and hardened material, providing greater hardness and wear resistance.
- Finish: Black polishing, which not only improves aesthetics but also offers additional protection against corrosion.
- Organization: Presented in a plastic organizer, making it easy to store and transport the drill bits.
