Description

TOLSEN's 3/8" long socket, with a diameter of 17 mm, is designed to provide optimal performance in mechanical and maintenance applications. Made from high quality materials, this tool guarantees durability and resistance in daily use.

- Material: Made from 50BV30 steel, known for its high strength and durability, and subjected to a heat treatment that improves its mechanical properties.
- Regulations: Complies with DIN3124 and ISO2725-1 standards, ensuring that the tool conforms to international quality and safety specifications.
- Driver: Equipped with a 3/8" square driver compliant with DIN 3120 and ISO 1174 standards, ensuring a secure and efficient connection with driving tools.
- Finish: The polished surface with a chrome finish not only provides a professional appearance, but also offers additional protection against corrosion and wear.
