Description

The slow-close double-swing cup hinge is an advanced door mounting solution, designed to provide smooth and efficient operation. This component is ideal for applications that require precise control of door movement, ensuring a quiet and safe closing thanks to its integrated damping piston.

- Damping piston: Provides a smooth and controlled closing of the door, minimizing noise and impact.
- Clip mounting system: Facilitates assembly and disassembly of the door, allowing for quick and hassle-free installation.
- Door thickness compatibility: Suitable for doors with a thickness between 14 and 22 mm, offering versatility in its application.
- Eccentric screw adjustment: Allows the door position to be adjusted precisely, ensuring perfect alignment.
- Closing and opening spring: Ensures smooth operation both when opening and closing the door.
- Opening degree: Offers an opening range of 90° to 165°, providing flexibility in daily use.
- Depth of the Cup: With a depth of 11.5 mm, it adapts to different furniture and door designs.
