Description

The 40x50 security cylinder in brass finish is an advanced solution for door protection, designed to offer a high level of security and resistance against unauthorized manipulation attempts. This cylinder incorporates multiple security technologies that make it suitable for use in environments where security is a priority.

- IT-18 Security Cylinder: Provides a superior level of protection thanks to its robust design and advanced features.
- Steel Anti-Pickup Plates: Increase the cylinder's resistance to forced extraction attempts.
- Double Clutch: Allows the cylinder to operate even if a key is inserted in the opposite side, improving functionality and convenience.
- Anti-Drill: Designed to resist drilling attacks, protecting the cylinder's internal components.
- Anti-Pick: Provides protection against lockpicking attempts, ensuring that only authorized keys can operate the cylinder.
- Anti-Bumping: Incorporates technology to prevent the use of bumping techniques, one of the most common forms of lock manipulation.
- Anti-Copy Technology: Keys are Designed to prevent unauthorized copying, ensuring that only the original keys can be used.
- Brass finish: Provides an elegant, aesthetic appearance and corrosion resistance.
- Size: 40x50mm: Standard dimensions that allow easy installation in a variety of doors.

Specifications

EAN	8432211147748
Material	Latón
