Inther brass security cylinder - 40x40mm, INTHER

Brand: INTHER

Reference: GIB 016086

Security cylinder designed for entrance doors, offering an efficient and reliable locking system. Its reversible key mechanism facilitates daily use, while its robust construction provides resistance to tampering techniques. Ideal for applications where a basic level of security is required.

[View product online](#)**Description**

The Inther brass security cylinder, measuring 40x40 mm, is a reliable solution for entrance doors requiring a basic level of security. Designed with a reversible flat dot key, this cylinder offers a combination of functionality and simplicity, allowing for matching and master keying in situations where complexity is not critical.

- Long cam for versatile installation in different lock types.
- T60 keyed alike, making it easy to copy additional keys.
- Fitted with 6 pins, providing a basic level of security.
- Includes 5 brass keys, ensuring availability for multiple users.
- Anti-drill feature, providing additional resistance against tampering attempts.
- Anti-bump protection, improving security against forced opening techniques.
