

Product sheet

Galvanized wire tensioner - 90 x 30mm, INDEX.

Brand: INDEX

Reference: GIB 001565

Galvanized wire clamp, measuring 90 x 30 mm, provides optimal tension in fences. Its corrosion-resistant construction ensures long-lasting performance in outdoor environments, making it suitable for applications requiring a precise and reliable fit in clamping systems.

[View product online](#)**Description**

The 90 x 30 mm galvanized wire tensioner is a robust and durable solution for applications requiring precise and secure tensioning of wire ropes. Manufactured from high-quality materials, this tensioner is designed to resist corrosion and wear, ensuring optimal performance in various environmental conditions.

- Material: Galvanized metal wire, providing excellent corrosion resistance.
- Dimensions: 90 x 30 mm, suitable for a wide range of applications.
- EAN13 code: 8432453015652, for easy identification and inventory management.
- Robust design: Solid construction ensuring a long life and reliable operation.
- Easy installation: Compatible with different types of wire ropes and tensioning systems.
