WADFOW Auto-Darkening Welding Helmet

Brand: WADFOW

Reference: GIB 050475

This welding helmet provides effective and comfortable protection, adapting to different work environments. Its design includes a wide viewing area and an automatic darkening system that responds quickly to working conditions, ensuring user safety from harmful radiation.

Description

The WADFOW auto-darkening welding helmet, model WWH3502, is designed to provide optimal protection and comfort to the user during welding tasks. This helmet combines advanced technology with ergonomic design, ensuring an efficient and safe user experience.

- Viewing Area: 93 × 43 mm, allowing wide visibility of the work area.
- Filter Dimension: 110 × 90 × 9 mm, designed for a precise and secure fit.
- Arc Sensors: 2, ensuring fast and accurate detection of the welding arc.
- Light State: DIN 4, providing clarity in normal light conditions.
- Dark State: DIN9-13, adjustable for different levels of darkness depending on the task.
- Grinding Function: Yes (DIN4), allowing use in grinding tasks.
- On/Off: Fully automatic, facilitating use without manual intervention.
- Sensitivity Control: Continuous adjustment, adapting to various working conditions work.
- UV/IR Protection: Up to DIN 16 at all times, ensuring maximum eye protection.
- Power Supply: Solar cells and sealed battery (1×CR2032), offering long life and reliability.
- Switching Time (Light to Dark): 1/25000s, ensuring a quick and safe transition.
- Delay Time (Dark to Light): 0.2-1s, with continuous adjustment for added convenience.
- Low TIG Amps Rated: AC/DC TIG, >5 Amps, suitable for precision work.
- Working Temperature: -5°C~+55°C, allowing for use in various environmental conditions.
- Storage Temperature: -20°C~+70°C, ensuring its integrity in different storage environments.
