Description

The **WADFOW MEASURING WHEEL** is a wheel odometer designed to provide accurate and reliable measurements in a wide variety of applications. Featuring a digital counter that provides a resolution of 0.1 meters, this device is ideal for professionals who require accurate measurements. Its tolerance of less than 0.5% ensures consistent results, while its measuring range of 0 to 9999.9 meters allows for easy coverage of long distances. The wheel, with a diameter of 100 mm and a perimeter of 314 mm, is designed to facilitate movement and measurement on different surfaces. Presented in a box, this odometer is an essential tool for engineers, architects, and anyone who needs to take distance measurements efficiently.
