Description

The MAXX (3.5x100) flat-end screwdriver is designed for users with high demands that demand reliable and accurate tools. Its construction prioritizes efficiency in daily mechanical work.

Technical characteristics

- 3.5 mm x 100 mm flat tip
- Special hardened and tempered steel rod
- Matt chromed with permanent markings
- Black tips for high precision
- Ergonomic handle with ideal tightening angle (120o)
- Spin zone in soft material
- Presentation: Granel

The combination of a individually shaped handle and a robust rod allows high axial force to be applied without excessive effort, preventing the tool from sliding. The smooth turning area facilitates quick and satisfactory use, while the permanent markings on the rod ensure correct profile identification.
