Description

Witte's MAXX round punch is a precision tool designed for drilling and marking operations that require a high torque of tightening and stability. Its construction ensures the efficient transmission of the operator's strength to the working material.

Technical characteristics

- Triangular two-component handle grey/blue
- High alloy special steel rod
- Chrome matte in the rod
- Increased strength and torque
- Ergonomic handle shape with ideal 120° turning angle
- Size: Round punch (6.0)
- Country of origin: Germany

The combination of the high alloy rod and the ergonomic design of the handle allows to execute precise blows with greater comfort and control, reducing fatigue during repetitive tasks.

Specifications

EAN	4003955244310
