Description

The Witte MAXX VDE (3x100) insulated flathead screwdriver is a tool specifically designed for professionals in the electrical and electronic engineering fields. Its triangular handle, made of two red and yellow components, features a 120° angle, optimizing hand rotation and providing an ergonomic grip. This design not only improves comfort during extended use but also increases tightening force and torque, ensuring precise and efficient results in every application.

Safety is a priority in the manufacturing of this screwdriver, as each unit undergoes individual testing in a 10,000-volt water bath.

This ensures that the screwdriver can be used safely in electrical environments, allowing work with voltages up to 1,000 V, in accordance with EN 60900/IEC 60900 standards.

- **Model:** Witte-53702
- **Type:** Insulated flat-head screwdriver
- **Dimensions:** 3 x 100 mm
- **Handle:** Triangular, two-component
- **Color:** Red and yellow
- **Turn angle:** 120°
- **Test voltage:** 10,000 V
- **Working voltage:** Up to 1,000 V
- **Standards:** EN 60900/IEC 60900
- **Applications:** Electrical and electronic engineering

Specifications

High	4,50
Width	4,50
EAN	4003955237114
Manufacturer	WITTE
Weight (kg)	0,0400
Depth	22,50
