Description

The Witte PRO-81245 T-handle hexagonal socket (4.5x200) is a tool designed to deliver exceptional performance for screwdriving and unscrewing tasks. Its ergonomic design and advanced functionality make it an ideal choice for professionals and DIY enthusiasts. The T-shaped handle provides a firm and comfortable grip, allowing for better control and force application during use. The shaft is made of special high-alloy steel, ensuring superior durability and strength, while the matte chrome finish not only enhances its aesthetics but also protects against corrosion.
