**WITTRON precision screwdriver
with hexagonal tip 1.5x50 mm.**

Brand: Witte

Reference: TUR 89764

WITTRON precision screwdriver with hex tip (1.5x50). Designed for detailed work, it offers multiple positions for use and access to deep screws. Its ergonomic, non-slip handle and matte chrome-plated steel shaft ensure durability and comfort.

[View product online](#)**Description**

The Witte-89764 precision screwdriver is a tool designed to meet the needs of the most delicate and demanding jobs. With a 1.5 mm hex tip and a length of 50 mm, this screwdriver allows easy access to deep screws, facilitating its use in confined spaces. Its ergonomic design, which combines two anti-slip components in the handle, ensures a comfortable and secure grip, allowing for various working positions to adapt to different situations and user preferences. The shaft is made of special high-alloy steel, guaranteeing exceptional durability and strength. The matte chrome finish not only provides a professional appearance but also helps prevent corrosion, ensuring the tool maintains its performance over time. The black tip adds a distinctive touch and makes the tool easy to identify on the job site.
