### Description

The Witte-89782 precision screwdriver, with a WITTRON hexagonal socket (1.8x60), is a tool designed to meet the needs of the most demanding precision work. Its innovative design allows easy access to deep screws, making it an ideal choice for tasks in confined spaces. The shaft is made of special high-alloy steel with a matte chrome finish that guarantees durability and wear resistance. The black tip provides visual contrast for easy identification and use. The screwdriver handle is ergonomically designed, made of two non-slip materials that ensure a firm and comfortable grip, allowing for various working positions without compromising efficiency. This tool is perfect for professionals and hobbyists seeking precision and comfort in their projects.
