Description

The Witte-89785 precision screwdriver, model WITTRON, is a tool designed to meet the needs of the most delicate and demanding jobs. Its 3x60 mm hexagonal socket allows easy access to deep screws, facilitating work in confined spaces. Thanks to its ergonomic design, the two-component, non-slip handle provides a secure and comfortable grip, allowing for various working positions to suit the user's preferences. The shaft is made of special high-alloy steel with a matte chrome finish that guarantees durability and wear resistance. The black tip not only provides a distinctive look, but is also designed to offer a precise fit on screws, minimizing the risk of slippage.
