Product sheet

STANDARD TIN Phillips STANDARD BIT guide 1/4" short PH2x25

Brand: Witte

Reference: TUR 27321

Witte's Phillips STANDARD TIN tip, model PH2x25 with 1/4" guide, offers high durability in metal metric screws. Its titanium nitride coating reaches a Wickers hardness of 2800 HV, tripling abrasion resistance and preventing premature breakage under high torque.

Description

The Witte screw tip PH2x25 is a precision tool designed for applications that require high durability and torque resistance, especially in the threading of metric screws on metal.

Technical characteristics

- Tip type: Phillips (PH)
- Size: PH 2
- Guide length: 1/4" short
- Coating: Titanium nitrate (TIN)
- Hardness Wickers: 2800 HV
- Point of origin: Germany (DE)

The TIN coating gives a surface three times harder than extra-tips, preventing premature wear and abrasion breakage. Its construction guarantees a prolonged performance even in conditions of greater torque.
