WITTE DIAMOND Phillips bit guide 1/4" short PH3x25 for precision screws.

Brand: Witte

Reference: TUR 27393

1/4" short Phillips DIAMOND guide bit (PH3x25) with diamond microparticle coating. Offers a precise fit and reduces slippage, ensuring a secure grip. Ideal for screwdriving on delicate surfaces and mechanical applications. Wear and corrosion resistant.

Description

The Witte-27393 Phillips DIAMOND bit is a high-precision tool designed to deliver exceptional performance in screwdriving applications. Thanks to its innovative diamond microparticle coating, this bit fits optimally onto the screw head, minimizing slippage and ensuring a firm grip. This feature is especially crucial when working with delicate or high-value surfaces, where slippage could cause damage. Furthermore, its high-quality gold coating provides effective corrosion protection, ensuring the tool's longevity. The extremely hard diamond particles increase wear resistance, resulting in remarkable durability. This bit is ideal for serial screwdriving applications, both mechanical and automated, and its short 1/4" guide design makes it versatile and easy to handle.

- **Type:** Phillips DIAMOND bit
- **Code:** Witte-27393
- **Size:** 1/4" short
- **Design:** Perfect fit to the screw head
- **Material:** Diamond microparticles
- **Coating:** Gold, high quality
- **Protection:** Optimal corrosion resistance
- **Durability:** High wear resistance
- **Applications:** Mechanical or automated serial screwdriving
- **Precision:** Maximum adjustment precision

Specifications

EAN	4003955319735
Manufacturer	WITTE

Weight (kg)	0,0100
